

# Amsterdam Class 6

AMST DVD 3 Counter Time:1.28–2.01

## Questions and Answers

### **1. What is the Solar Symbiosis Cycle?**

- It is the natural process by which the atmosphere through the Fire Chambers is supposed to interact with the emissions that are given off by the Sun.
- A Solar Symbiosis Cycle is a natural breathing cycle by which the Core Hydrogen, such as the Core of a Star, can be re-charged.
- Planetary Bodies can take the frequencies, or the protons and the electrons, coming from the Solar Wind and the Arcs of energy of the Sun through their Fire Chambers. Certain changes would then take place in a Planetary Body that would open the Center Core Prana Seed. This would allow the Prana Seed to phase and the frequency to go back out to connect with its Adjugate Twin and there would then be a Backflow Return.
- So through this Solar Symbiosis Cycle it would be an Eternal-Life Cycle and an Eternal-Life Planet.

### **2. Why is our Ozone Layer not natural?**

- Our Ozone Layer is not natural because it comes from a reversed light field that has to do with things called the NETs; they are literally meant to shift your Angular Rotation of Particle Spin to make sure you never get out into the natural passageways. Instead you get shifted into what is called a Hibernation Zone. The NETs control the DNA as well.

### **3. Who are the Krystal River Councils?**

- A large group of different race councils/Adashi Masters. A collective of Kryst Councils are involved in the Host and have been for 450 billion years. They are referred to as the Krystal River Councils. They are from different Ecka-Veca Systems of 3 different Eckasha Matrices—the Eckasha levels and the Eckasha-A levels of those Matrices. They also go down into the Hubs, which are in the Core, the Inner and the Middle Domains.

### **4. Why has Earth been under fire for so long by Fallen Angelics?**

- Earth is a Hosting Planet inside a Host Star called Urtha. And Urtha is in M31. The planes directly interface through an intermediary matrix called the Aqua'elle Matrix that runs through the AdorA side. So we are literally at a different Angular Rotation of Particle Spin inside a Host Star. We are the only one.

- This was the one full Host alignment in the entire Milky Way Galaxy that allowed it to connect to its original Gate System. If there is anywhere in the Milky Way Galaxy you can ascend from, it would be here.

**5. What happened to Earth's Crystal Temples?**

- They were hijacked by the Nibiruans with the Nibirian Diodic Crystal Grids. These crystals were seeded on top of the natural crystals of Earth from a planet called Nibiru that had been pulled into Monadic Reversal. Monadic Reversal is a reversal of the natural Encryption Codes that form the Fire Letters that form the Crystal Bed, the literal Crystal Core of which the planet is made. The Nibirian Diodic Crystal Grids weren't a good thing, but they are now coming under the control of the Kryst races, so they can recode them enough to where they will assist in the healing process instead of causing more harm.

**6. What are the Adashi Temples?**

- The Sirian Crystal Temples on Urtha. They connect directly into Sirius B through the Urtha Physical D2 Mantle.

**7. In what layer or layers are the Crystal Temples?**

- They start in the Middle Mantle, Ma-8 layer, and go up into the Ka-9 layer, the Rasha Body layer.

**8. What Spanner Gate will be used for the Adashi Access Key Journey?**

- Spanner-7, which is the one running over the 7/1 line. Remember the Adjugate Twin Line. So if you have a clock, it would be the Event Horizon Number 7 Span Gate.

**9. Describe the Adashi Access Key Journey.**

- There is a small portion of your body, the Rasha Body, that holds an image of you that is just like you are right now. That is the part of yourself that you're going to take to travel into what is called a Glide.

**10. Why is the specific format of the Adashi Access Key Journey so important?**

- To prevent falling into Hibernation Zones. This particular route takes you safely *over* the Hibernation Zones and into the Aurora Platforms, and from there to the Adashi Temples.

**11. What structures link together the Aurora Platforms, and what do they form all together?**

- The Ecousha Platforms (AdorA side). They link together the Aurora Platforms (EtorA side), and when they all link together they form layers of what is called Ascension Earth.

## **12. Where is Ascension Earth, and where is Urtha?**

- Ascension Earth is in the Aqua'elle Matrix (the AdorA side), which is in between here and Andromeda (EtorA side). Urtha is in Andromeda. Earth is here, and they all interface at the same place, depending on which of the Platforms (4 Safe Zones) are open, and that depends on which of the NaVA-Ho Flows are open.

# **Vocabulary**

## **1. Spanner Gate:**

The figure-8 shape that is the Core Flow or NaVA-Ho Flow.

## **2. Aurora Platform:**

Safe Zone Platform that steps over the Reversed Light Fields that are caused by the NETs.

## **3. Glide:**

The special way to journey undertaken by the Rasha Body.

## **4. Monadic Reversal:**

The reversal of Earth's natural Encryption Codes, which form the Fire Letters that form the Crystal Bed, the literal Crystal Core of which it is made.

## **5. The NETs:**

The Nibiruian Electro-static Transduction fields. Frequency fences placed by the FA to keep us imprisoned in this time frame by shifting our Angular Rotation of Particle Spin to make sure we never get out into the natural passageways. The NETs also control the DNA.

## **6. Nibiru:**

12<sup>th</sup> planet of our Solar System with a very long orbit. Not yet discovered by Earth scientists. Under control of the FA. It functions on a 34-CCW/21-CW reverse orbit and reverse Merkaba Field alignment.

# **Multiple Choice**

## **1. Where do the Allurean Chambers connect into?**

- (a) The Fire Chambers.
- (b) The 8-Cell Cluster of the Hall of Records.
- (c) The Ecousha Platform.
- (d) Inner Earth.

2. **What facilitates the Host to allow the Ascension Passages to stay open for 223 years?**
  - (a) The Aurora Platform.
  - (b) The Host Shield—the Aquafereion Shield, direct descendents of the Aquafereion Race.
  - (c) Sirius B.
  - (d) Urtha.
  
3. **What is characteristic of the Ma-8 Layer?**
  - (a) Spiral Temples.
  - (b) Crystal Grids.
  - (c) Crystal Temples.
  - (d) Monoliths.
  
4. **What is at the center of the Solid Core?**
  - (a) The E-Ta-Urs or Ethers, where the Prana Seed would be.
  - (b) Metals.
  - (c) Crystals.
  - (d) The Vapors, within the center of the Prana Seed.
  
5. **Etheric energy is in \_\_\_\_, Telluric energy is in \_\_\_\_, Atmic energy is in \_\_\_\_,**
  - (a) Dimension 3; Dimension 2; Dimension 1.
  - (b) Dimension 1; Dimension 2; Dimension 3.
  - (c) Dimension 4 ; Dimension 5 ; Dimension 6.
  - (d) Dimension 13 ; Dimension 14 ; Dimension 15.
  
6. **Why can't we see Urtha?**
  - (a) Because we are literally at a different ARPS within the Host Star Urtha.
  - (b) Because Urtha is in a different galaxy.
  - (c) Because Urtha is in a different time frame.
  - (d) Because of the sun's position—between Earth and Urtha.
  
7. **Why is Earth a place that has been under attack by Fallen Angelics?**
  - (a) They want Earth as “real estate.”
  - (b) It is the easiest place to ascend from.
  - (c) They need a new planet to live on.
  - (d) Because of Earth's riches: minerals, oil, gold, etc.
  
8. **How long has the big Rescue Mission been going on?**
  - (a) 223 years.
  - (b) 46 million years.
  - (c) 11,558 years.
  - (d) 450 billion years.

**9. What is the Van Allen Gap?**

- (a) The space between Earth and the Van Allen Inner Bands.
- (b) The space between the Sun and the Coronasphere.
- (c) The space between Earth and the Coronasphere.
- (d) The space in the atmosphere between the Van Allen Inner and Outer Bands.

**10. How are the Vertical Maps created?**

- (a) By taking a vertical section of the Spherical Maps.
- (b) By taking a horizontal section of the Spherical Maps.
- (c) By taking a cross section of the Spherical Maps.
- (d) By placing the Map upright.

**11. The Adashi Temples are actually \_\_\_\_\_.**

- (a) the Sirian Crystal Temples
- (b) Atlantis Temples
- (c) the Temples in Inner Earth
- (d) ancient Greek Temples

**12. The Adashi Temples run on \_\_\_\_\_.**

- (a) Fire Chambers
- (b) the Liquid Outer Core
- (c) the Allurean Chambers
- (d) Spanner Gates

**Multiple Choice Answers:**

**1.B, 2.B, 3.C, 4.A, 5.B, 6.A, 7.B, 8.D, 9.D, 10.C, 11.A, 12.D.**

The dynamics of the emerging MCEO materials involve the reality that the detailed understanding of major topics is under continuous development; therefore, the contents, and level of detail herein, are as advanced as possible UP TO the date of the workshop recording.
