Vocabulary

1. Dimensions:

Sets of frequency bands, structured into groups of three dimensional bands per Harmonic Universe.

2. Merkaba:

System of spiralling electro-magnetic energy constructs within and surrounding the body that manifests in the form of interwoven, counter-rotating star tetrahedrons—two pyramids together combining to form a Star of David. The Merkaba Vehicle forms in stages as a natural product of merging the multidimensional Merkaba spirals that arise as a result of the evolutionary process and integration of the 15-dimensional levels of identity.

3. Nethra Phase:

The 3-dimensional Merkaba. The position of the harmonic Merkaba spirals when they are locked into their respective Harmonic Universes, is called the “Nethra Phase” Merkaba.

4. Hallah Phase:

Merging of Harmonic Universe 1 (HU 1) and Harmonic Universe 2 (HU 2) body/identity systems, i.e., the Earthly Incarnate Identity with the Soul Matrix Identity. The 6-dimensional Merkaba Vehicle. This process creates the common bi-pyramidal Merkaba Vehicle otherwise referred to as the Star Tetrahedron, which facilitates movement between HU 1 and HU 2. Through this wave pattern structure a state of physical bi-location of the identity within corresponding space-time coordinates in HU 1 and HU 2 takes place; the consciousness can simultaneously experience life in HU 1 and HU 2, and the identity becomes a fully embodied soul.

5. Quatra Phase:

The Soul Identity merges with its Oversoul Identity. The 9-dimensional Merkaba Vehicle. It looks like an 8-pointed star. The 9-dimensional Merkaba Vehicle through which full displacement from HU 1 to HU 2 and bi-location between HUs 2 and 3 can occur.

6. Mahunta Phase:

The 12-dimensional Merkaba Vehicle. A 4-pyramidal structure, 10-pointed star, and 12-strand DNA activation. One rotating ring of multi-spectral light. The Christed Merkaba Vehicle used by the Avatar Identity. The 12-dimensional Merkaba Vehicle of the Avatar Identity, through which full displacement from HU 2 to HU 3 and bi-location between HUs 3 and 4 can occur.

7. Rahunta Phase:

The 15-dimensional Merkaba Vehicle created by integration of the Rishi Identity of HU 5; a 12-pointed star surrounded by 2 rotating multi-spectral rings of light. The Rahunta Phase Merkaba Vehicle only moves between HU 3 and HU 5, since it would vaporize anything lower.

8. Rishi Body:

The Universal Body of Light. It first evolves as a Geomantic Entity within the Triadic Level of the Energy Matrix in HU 5, just outside of the Time Matrix, just beyond the Meta-galactic Core at the 8th dimension.

9. Tinatra:

Merkaba form of the Geomantic Entity Rishi Body. It appears as an elongated diamond form comprising 2 elongated 3-sided pyramids, one inverted, surrounded by three rings of multi-spectral light. The rapid counter-rotating spin of the 2 elongated pyramids give this Merkaba vehicle the appearance of a Sphere of Fire, surrounded by rings of fire. Entities existing as Tinatra Merkaba Vehicles remain at the Meta-galactic Core just beyond the 8th dimension and send forth to the Time Matrix fragments of themselves to evolve within the 15-dimensional system.

10. Morphogenetic Field:

The form-holding blueprint of a being.

11. Thoughts:

Thoughts are things in literal energy terms. Thoughts create morphogenetic fields, which then take on a life of their own—creating energy to become manifestations within matter and event.

12. Hova Bodies:

“Hova” = “3-dimensional light/sound grid.” The human identity has one Hova Body in each of the 5 HUs in one 15-Dimensional Time Matrix. Each Hova Body holds one 3-dimensional portion of the individual’s identity.

HU 1 = Nada Hova, the Incarnate Identity, the most dense.

HU2 = Alphi Hova, the Soul Identity.

HU3 = Betcha Hova, the Oversoul Identity.

HU4 = Mahara Hova, the Avatar/Christed Identity.

HU5 = Raja Hova, the Rishi ante-matter Identity.

Each represents a different level of matter-form density, a different level of consciousness, and a different location in space-time placement. The process of human evolution is the progression through various forms in the lower HUs into the pure original

wave-form consciousness of HU 5, progressively de-densifying the body matter while expanding the form in content of consciousness. This process of evolution is dimensionalized ascension, and it is achieved through the progressive integration of one Hova Body into the next.
