- 5. How do we fit into the God concept?**
  - We are all taking place within the Mind and Heart of God (Source). Every one of us is a manifestation of consciousness that is capable of anything. We are a movement of consciousness that perpetually recreates itself into different forms. We are that eternal point of cognition.
- 6. Did God just one day decide to create me the individual being?**
  - Not exactly. When we expand back into what we were before—we are that eternal point of God. We decided to create a cosmic family, a universal family, a planetary family and then an individual being. Each level is a state of knowing ourselves that we will pass through in going back home. We are in the process of expanding our consciousness back into God.
- 7. Some people feel inferior, have a sense of being a servant, they must follow some book or program that tells them how God expects them to behave before God considers them worthy. Is this part of the true teachings?**
  - No, God values each and every one of its parts equally.

**8. Why does the human brain interpret God as a paradox?**

- God is an absolute union of opposites and will not be one or the other. It is stillness and movement

**9. What are we made of?**

- We are made of God stuff. A structure of consciousness that is made of substance.

**10. What happens when you think a thought?**

- You have created a morphogenetic field, and in order to observe what you have created you will need to put it one dimension below your state of consciousness or raise your state of consciousness one level higher.

**11. What is set in motion when you think a thought?**

- A group of units of consciousness that form a Partiki Grid, which is the fabric of the morphogenetic field.

**12. Overall, what does Keylontic Science teach?**

- KS teaches us how to become creators and what it means to be creators. That we are one with God.

## **Vocabulary**

**1. Point of Cognition:**

A mental space inside us that watches everything else. An awareness that goes beyond words, language and thought. It is a point of knowing.

**2. Eternal Point of Consciousness:**

Put a point of cognition into a huge macro cosmic scheme and amplify it by infinite numbers, and you would have an eternal point of cognition that is simply a sublime and complete total awareness of all that ever was and ever will be.

**3. Consciousness:**

A point where energy (vibration) and spirit come together and has substance. Consciousness is an attribute of God.

**6. Yunasai:**

The word used by the higher evolved being to describe the Heart–Mind of God. A point of absolute union of motion and stillness.

**7. Direct Cognition:**

You will just get it. You don't need the words for it.

**8. Cosmic Egg:**

The outermost egg that holds all the other “eggs within eggs” of creation.

**9. Hova Body Integration:**

This is the process of dimensional ascension where we gradually expand ourselves back into union with Source.

**10. Units of consciousness:**

Ultra micro particles, not yet discovered by our scientists, called Partiki, Partika, and Particum.

**11. Morphogenetic Field:**

It is made of interwoven Partiki Grids, which are the units of consciousness. Form-holding blueprint of light, sound, scalar waves and units of consciousness that form the foundation of anything in the matter world.

**12. Primal Matrix:**

The first formal thought form that was created.
